California Adult Education Online Application and Reporting

Updated Course Approvals Procedures

Agenda

- What are Course Approvals?
- What changes can you expect for 23-24?
- Why are they needed?
- Who's required to do them?
- How do you navigate the site?
- Q & A

Course Approval System

- The CDE AEO's Course Approval System is the way K-12 and County Office of Education adult schools secure course and program approval.
- The CDE AEO approves courses and programs for adult schools.
- The Course Approval System is available in the California Adult Education Online Application and Reporting site at <https://caadultedreporting.org/adulted>.
- Submit Annually

Education Code References

- The State Superintendent of Public Instruction is required to establish procedures for K-12 and County Office of Education adult schools to secure course and program approval (California Education Code Section 52506).
- A course of study for each adult school shall be prepared under the governing board of the district maintaining the adult school and shall be subject to approval of the CDE if those classes are offered for state apportionment (EC 51056).

New site changes

- A-22 is now Course Approval System
- Updated Education Code References
- Updated Approval Letters
- Under Career Technical Education (CTE), course offerings have been expanded and career pathway names and course codes identified.
- Information on the CTE course pages has been updated to reflect current education code.

Job Market Study Requirements

- Before establishing a career technical education training program, a job market survey must be completed and the governing body of the member or the local consortium must determine if the proposed course/program is needed.

Related Education Code

- Before establishing a career technical education training program, each member of a local adult education consortium, or the consortium as a whole, shall conduct a job market study of the labor market area in which it proposes to establish the career technical education training program or rely upon the most recent job market study of the labor market area conducted by the local workforce development board. The study shall use local labor market information and consider a supply analysis of existing career technical education training programs for adults maintained by high schools, community colleges, and other postsecondary educational institutions in the geographic area to ensure that the anticipated employment demand for adults enrolled in the proposed training program justifies the establishment of the proposed courses of instruction (EC 84906(a)(3)(A)).
- After completing the job market study and before establishing the career technical education training program, the governing body of a member of a local adult education consortium, or the consortium as a whole, as applicable, shall determine if the job market study justifies the proposed career technical education program (EC 84906(a)(3)(B)).
- Job market surveys do not apply to CTE courses that were offered prior to January 1, 2022.

Course Outline Requirements

- A Course Outline is recommended but not required before requesting Course Approval. However, all course outlines are reviewed by CDE during a Federal Program Monitoring visit. Enter the year for your agency's most recently approved class outline.

- To meet optimum educational standards, course outlines should contain the following five elements:
 - Goals and purposes
 - Performance objectives or competencies
 - Instructional strategies
 - Units of study, with approximate hours allotted for each unit
 - Evaluation procedures

- Related Education Code: ED 51056; 52504; 52506; 5 CCR 10508 (b)
Adult Education Handbook for California (2023)

Approval Letter Updates

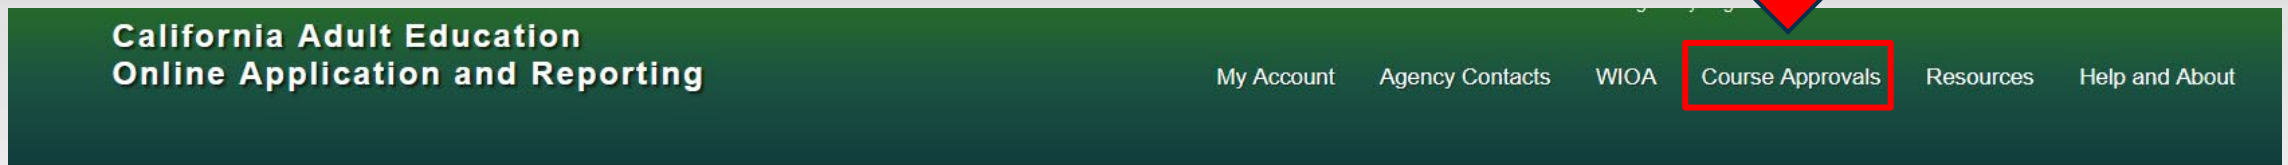

- The name of the assigned EPC for the agency, email, and phone number will be listed on the approval letter. Expedite communication by emailing your consultant with any immediate questions.
- The approval letter will not be signed. The system is fully electronic.
- Each time an agency makes changes to its courses, even during the year, a new course approval must be requested.
